76 SERIES

Hygienic Style Single Stack

The **76 Series** single cartridge housing is a high quality product specifically designed for critical applications. It is manufactured to provide a 0.4µm Ra crevice free sanitary finish on all internal surfaces. The hygienic design ensures the housing is easy to clean and can be sanitised or steam sterilised readily. The base of the housing is designed to offer lower pressure drops in high flow applications and to ensure easy draining and cleaning.

76 Series housings are suitable for the filtration of both liquids and gases and will accept the full range of Amazon and industry standard code 7 (226) style single open-ended cartridges with nominal lengths of 5, 10, 20 and 30".
